ABOUT THE COMPANY

Powering Industries with Reliable Electrical Control Solutions

Sri Bhairaveshwara Power Control is a Bengaluru-based manufacturer specializing in high-quality electrical control panels and industrial automation solutions. We are committed to delivering reliable, safe, and efficient electrical systems that meet the evolving needs of industrial, commercial, and infrastructure projects.

With a dedicated manufacturing facility spanning approximately **4,000 sq. ft.** and a skilled team of experienced engineers and technicians, we design, manufacture, and deliver customized control panel solutions tailored to our customers' requirements. Our engineering processes are supported by **AutoCAD**, ensuring precision, quality, and adherence to industry standards.

Our comprehensive product portfolio includes **Power Distribution Panels, PCC Panels, MCC Panels, APFC Panels, PLC Panels, Automation Panels, Generator Control Panels, AMF Panels**, and a wide range of specialized electrical control solutions. We also provide **Design Engineering, Erection & Commissioning**, and **Container Assembly Solutions**, enabling us to deliver complete end-to-end electrical panel solutions.

At **Sri Bhairaveshwara Power Control**, we believe in building long-term relationships through engineering excellence, superior product quality, timely delivery, and customer-focused service. Our commitment to innovation and continuous improvement allows us to deliver dependable solutions that power industries with confidence.

OUR EXPERTISE

ELECTRICAL CONTROL PANEL MANUFACTURING

High-quality panels designed and built for reliable power distribution and control applications.

INDUSTRIAL AUTOMATION SOLUTIONS

Advanced automation systems to improve efficiency, productivity, and operational performance.

DESIGN ENGINEERING

Customized panel design and engineering using AutoCAD for precision and optimal performance.

POWER DISTRIBUTION SYSTEMS

Robust and safe power distribution solutions for industrial and commercial applications.

ERECTION & COMMISSIONING

Professional installation, testing, and commissioning for smooth and reliable operations.

CUSTOMIZED INDUSTRIAL SOLUTIONS

Tailored solutions to meet unique project requirements with complete customer satisfaction.

PRODUCTS & SERVICES PART 1

ELECTRICAL CONTROL PANELS

We manufacture a wide range of high-quality Electrical Control Panels designed to ensure safety, reliability, efficiency, and superior performance. Our panels are engineered using premium components and advanced technology to meet diverse industrial and commercial requirements.

01

POWER DISTRIBUTION PANELS (PDB)

Designed for safe and efficient distribution of electrical power across industrial and commercial facilities with proper protection and monitoring.

02

POWER CONTROL CENTER (PCC)

Centralized power distribution and control panels that ensure systematic control, protection, and monitoring of electrical systems.

03

MOTOR CONTROL CENTER (MCC)

Provides centralized control, protection, and monitoring for motors, ensuring reliability and ease of operation and maintenance.

04

CONTROL & RELAY PANELS

Engineered to provide reliable protection, control, and monitoring of electrical equipment and power systems.

05

APFC PANELS

Automatic Power Factor Correction panels that improve power factor, reduce energy losses, and enhance system efficiency.

06

PLC PANELS

Automated control panels integrated with PLC systems for precise process control, machine automation, and industrial applications.

07

AUTOMATION PANELS

Custom-built automation panels that enhance operational efficiency, productivity, and system performance.

08

GENERATOR CONTROL & AMF PANELS

Automatic Mains Failure (AMF) and generator control panels that ensure uninterrupted power supply and smooth transfer during power failure.

BUILT FOR SAFETY. ENGINEERED FOR PERFORMANCE.
Reliable Solutions | Quality Components | Timely Delivery

*Powering Industries
with Confidence*

ELECTRICAL CONTROL PANELS

09

LIGHTING DISTRIBUTION PANELS

Provide safe distribution and control of lighting circuits for industrial, commercial, and infrastructure projects.

10

METERING PANELS

Designed for accurate energy metering, monitoring, and analysis of electrical parameters.

11

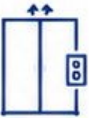

DRIVE PANELS

Equipped with VFDs and controls to provide efficient motor speed control and energy savings.

12

LIFT PANELS

Reliable and compact control panels designed for smooth and safe operation of lifts and elevators.

13

CRANE PANELS

Heavy-duty control panels engineered for cranes and material handling equipment with enhanced safety.

14

CONSOLE PANELS

Ergonomically designed operator consoles for monitoring and controlling processes and systems.

ENGINEERING & INDUSTRIAL SERVICES

15. DESIGN ENGINEERING

We provide customized electrical panel design and engineering services using advanced AutoCAD tools to deliver precise, efficient, and cost-effective solutions tailored to project requirements.

16. ERECTION & COMMISSIONING

Our experienced team ensures professional installation, testing, and commissioning of electrical systems for safe, reliable, and smooth operation at site.

17. CONTAINER ASSEMBLY SOLUTIONS

We offer containerized electrical solutions with complete assembly, wiring, and testing. These plug-and-play systems are ideal for industrial and infrastructure applications.

**COMPLETE SOLUTIONS.
POWERING YOUR SUCCESS.**

WHY CHOOSE US

At Sri Bhairaveshwara Power Control, we combine engineering expertise, advanced manufacturing practices and a customer-centric approach to deliver electrical control panel solutions that exceed expectations.

We deliver reliable electrical solutions with quality, precision and commitment.

QUALITY MANUFACTURING

We use premium quality components and follow stringent manufacturing processes to ensure durable, safe and high-performance control panels.

EXPERIENCED ENGINEERS

Our team of skilled engineers and technicians brings extensive industry experience and in-depth technical knowledge to every project.

CUSTOMIZED SOLUTIONS

We understand that every project is unique. Our panels are custom-designed to meet specific requirements and application needs.

AUTOCAD DESIGN SUPPORT

All our designs and drawings are developed using AutoCAD software to ensure accuracy, precision and easy documentation.

TIMELY DELIVERY

We value your time and ensure on-time delivery through efficient planning, streamlined processes and strong execution.

TECHNICAL EXPERTISE

From design to commissioning, our technical expertise ensures reliable, efficient and safe solutions for all types of industrial applications.

CUSTOMER SATISFACTION

We prioritize long-term relationships by providing responsive support and solutions that deliver maximum value.

RELIABLE & SAFE SOLUTIONS

Safety is at the core of our products. We build panels that comply with standards and ensure reliable, uninterrupted performance.

OUR COMMITMENT TO YOU

Deliver Excellence in Every Project

Ensure Safety & Reliability

Drive Innovation & Continuous Improvement

Build Long-Term Partnerships

Exceed Customer Expectations

Your Success is Our Power. We are committed to powering your projects with quality products, expert support and complete reliability.

VISION & COMMITMENT

At **Sri Bhairaveshwara Power Control**, our vision is to be a trusted leader in the electrical control panel industry by delivering innovative, reliable, and efficient solutions that power industries and communities.

We are committed to engineering excellence, customer satisfaction, quality manufacturing and continuous improvement in everything we do.

OUR VISION

To be a leading name in the electrical control panel industry, recognized for innovation, quality, and reliability—empowering industries with safe, efficient and sustainable electrical solutions.

OUR MISSION

To design, manufacture and deliver high-quality electrical control panels and engineering solutions that meet global standards, exceed customer expectations and contribute to the growth of industries and society.

OUR COMMITMENT

QUALITY COMMITMENT

We are committed to using high-quality materials, advanced technology, and rigorous quality checks to ensure durable and reliable products.

SAFETY COMMITMENT

We prioritize safety in our designs and manufacturing processes to ensure protection for people, equipment and the environment.

CUSTOMER COMMITMENT

We understand our customers' needs and deliver customized solutions with responsiveness, transparency and long-term support.

INNOVATION COMMITMENT

We continuously invest in innovation and improved to provide advanced, efficient and future-ready solutions.

INTEGRITY COMMITMENT

We conduct our business with honesty, ethics and transparency, building trust and strong relationships with our clients and partners.

EXCELLENCE COMMITMENT

We strive for excellence in every project through skilled workmanship, attention to detail and a passion for perfection.

OUR GUIDING PRINCIPLES

Customer First
We put our customers at the center of everything we do.

Quality Always
We never compromise on the quality of our products and services.

Teamwork
We believe in the power of teamwork and respect every individual.

Sustainable Growth
We aim for responsible and sustainable growth benefiting all.

“

Our Vision drives us. Our Commitment defines us.
Together, we Power a Better Tomorrow.

”

**SRI BHAIRAVESHWARA
POWER CONTROL**

Engineering Excellence. Powering Progress.

INFRASTRUCTURE & MANUFACTURING EXCELLENCE

At Sri Bhairaveshwara Power Control, our robust infrastructure and advanced manufacturing facilities empower us to deliver superior quality electrical control panels with efficiency, precision and reliability. We continuously invest in technology, equipment and skilled manpower to meet the growing demands of our clients.

OUR INFRASTRUCTURE

SPACIOUS WORKSHOP

Well-planned layout ensuring smooth workflow, safety and efficient production.

MODERN MACHINERY

Equipped with modern machines and tools for accurate assembly, fabrication and testing.

PRECISION FABRICATION

Advanced fabrication equipment to ensure precision, consistency and high quality.

ASSEMBLY AREA

Dedicated assembly sections for systematic panel building and wiring.

TESTING FACILITY

In-house testing setup to ensure safety, reliability and performance of every panel.

COMPONENT STORAGE

Organized storage of premium quality components for timely and efficient production.

DESIGN & ENGINEERING

AutoCAD based design and engineering for accurate, client-specific solutions.

SAFE PACKAGING & DISPATCH

Secure packaging and timely dispatch ensuring product safety during transit.

Our infrastructure, technology and people enable us to deliver **reliable solutions** that power industries with confidence.

CONTINUOUS
IMPROVEMENT

OUR MANUFACTURING PROCESS

PRECISION AT EVERY STEP. QUALITY AT EVERY PANEL.

Our streamlined manufacturing process ensures that every control panel we deliver meets the highest standards of quality, safety, and performance.

01

REQUIREMENT ANALYSIS

We understand the customer's requirements, application, and technical specifications to ensure the right solution.

02

DESIGN & ENGINEERING

Our engineers design the panel using AutoCAD software and create accurate documentation for manufacturing.

03

MATERIAL PLANNING

High-quality raw materials and components are selected and procured from trusted and approved vendors.

04

SHEET METAL FABRICATION

Precision cutting, punching, bending and fabrication of enclosures and panels using advanced machinery.

05

PANEL ASSEMBLY

Components are assembled with precise wiring, labeling and proper layout as per design standards.

06

QUALITY CHECK & INSPECTION

Every panel undergoes strict quality checks at multiple stages to ensure safety, accuracy and compliance with standards.

07

TESTING

All panels are tested for electrical safety, functionality and performance as per customer and industry standards.

08

PACKING & DISPATCH

Panels are securely packed to prevent any damage during transit and prepared for safe and timely delivery.

09

DELIVERY & SUPPORT

We ensure on-time delivery and provide installation support, commissioning and after-sales service.

OUR PROCESS. YOUR ASSURANCE.

From concept to commissioning, we follow a robust process to deliver reliable and high-performance control panels.

QUALITY ASSURED

SAFETY FOCUSED

EFFICIENT PROCESS

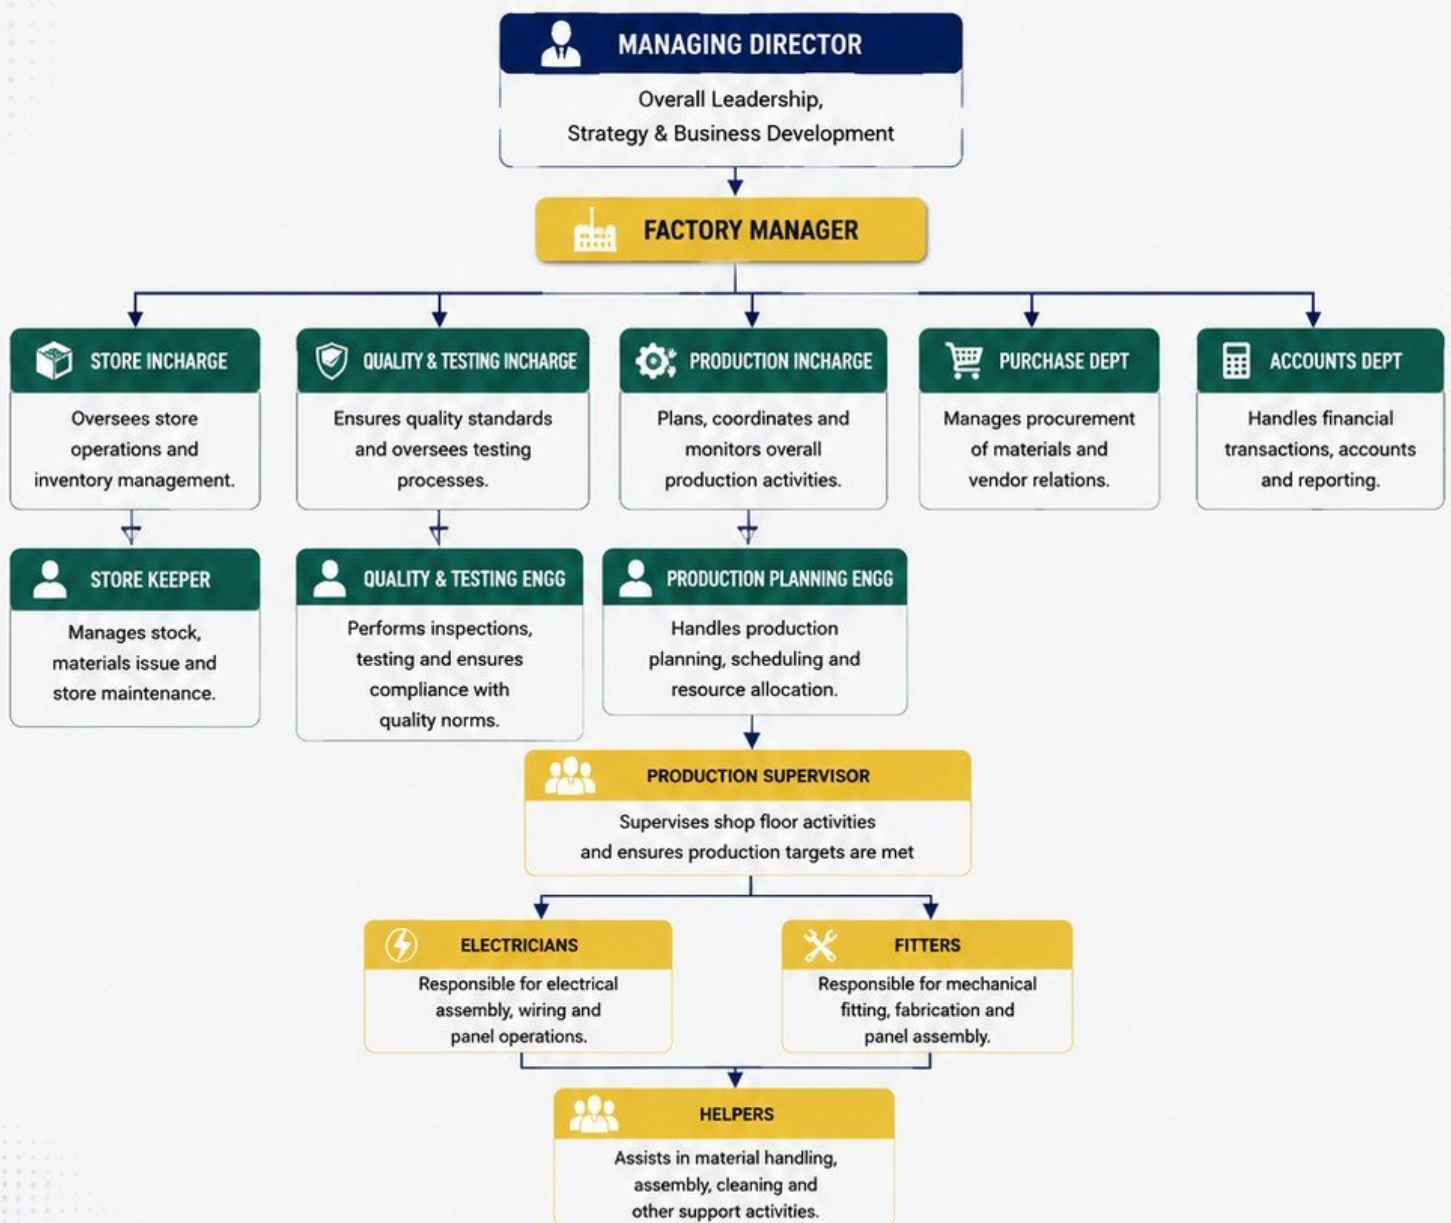

CUSTOMER SATISFACTION

ORGANISATION STRUCTURE

At Sri Bhairaveshwara Power Control, our organizational structure is designed to ensure efficiency, accountability and seamless coordination across all departments. We believe in a strong leadership, skilled teams and a collaborative work culture that drives excellence in every project we undertake.

CURRENT ORGANISATION STRUCTURE

STRONG LEADERSHIP
Guiding with vision and responsibility.

SKILLED TEAMS
Expertise that drives quality and innovation.

COLLABORATIVE CULTURE
Working together for shared success.

RESULT ORIENTED
Committed to efficiency, quality and growth.

QUALITY POLICY & OUR COMMITMENT

At Sri Bhairaveshwara Power Control, quality is not just a goal, it is a way of working.

We are committed to delivering reliable, safe, and efficient electrical control panels that meet customer requirements and comply with applicable standards and regulations.

OUR QUALITY POLICY

We are committed to:

- ✓ Delivering products that meet or exceed customer expectations and applicable standards.
- ✓ Ensuring safety, reliability and efficiency in every panel we manufacture.
- ✓ Continuously improving our processes, technology and the competence of our people.
- ✓ Complying with statutory and regulatory requirements.
- ✓ Building long-term relationships with our clients based on trust, transparency and performance.

CUSTOMER FOCUS

We understand our customers' needs and deliver solutions that create value.

QUALITY ASSURANCE

Every panel undergoes stringent quality checks at every stage, ensuring superior performance and safety.

CONTINUOUS IMPROVEMENT

We embrace innovation and continuously improve to stay ahead and deliver better solutions.

SAFETY FIRST

We prioritize the safety of our people, customers and end users in everything we do.

OUR KEY PRINCIPLES

QUALITY

Zero compromise on the quality of materials and workmanship.

RELIABILITY

Deliver products that operate safely and reliably, every time.

EFFICIENCY

Optimize our processes to ensure on-time delivery and efficiency.

TEAMWORK

Encourage collaboration, respect and accountability across all levels.

SUSTAINABILITY

Promote responsible practices for a better tomorrow.

OUR KEY STRENGTHS

EXPERIENCED TEAM

Skilled and dedicated professionals with industry expertise.

ADVANCED FACILITIES

Well-equipped infrastructure and modern machinery.

STANDARDIZED PROCESS

Well-defined processes ensuring consistency and quality.

ON-TIME DELIVERY

Effective planning and execution for commitment on time.

CUSTOMER SATISFACTION

Focused on long-term relationships through quality and trust.

CONTINUOUS GROWTH

Driven by innovation and a passion to excel.

Our commitment to quality, safety and continuous improvement empowers us to deliver excellence in every panel we build.

**SRI BHAIRAVESHWARA
POWER CONTROL**

Committed to Quality. Driven by Excellence.

OUR CAPABILITIES & INFRASTRUCTURE

At Sri Bhairaveshwara Power Control, we are equipped with advanced infrastructure, skilled manpower and robust processes that enable us to deliver high-quality electrical control panels on time, every time.

OUR CAPABILITIES

DESIGN & ENGINEERING

In-house panel design using AutoCAD, EPLAN and industry standards to ensure accuracy and reliability.

MANUFACTURING

Precision fabrication with modern machinery and skilled technicians ensuring superior build quality.

QUALITY CONTROL

Strict quality checks at every stage to ensure safety, performance and customer satisfaction.

PROCUREMENT & SUPPLY CHAIN

Strong vendor network ensures timely sourcing of quality components at competitive prices.

PROJECT EXECUTION

End-to-end execution from planning to commissioning with timely delivery and minimal downtime.

AFTER-SALES SUPPORT

Comprehensive support and maintenance services for long-term reliability and customer confidence.

OUR INFRASTRUCTURE

FABRICATION FACILITY

State-of-the-art fabrication unit equipped with CNC machines, punching, shearing and bending machines for precision work.

COMPONENT STORE

Well-maintained inventory of electrical components from reputed brands ensuring quick availability.

ASSEMBLY AREA

Spacious and well-organized assembly departments for MCC, PCC, APFC, PLC and distribution panels.

PAINT & FINISHING

Powder coating section for durable and corrosion-resistant finishing to enhance panel life and appearance.

TESTING FACILITY

Advanced testing equipment for routine and type tests to ensure compliance with all safety and performance norms.

DISPATCH & LOGISTICS

Efficient packing, safe loading and reliable logistics to ensure on-time delivery at project sites across India.

WHAT THIS ENABLES US

Consistent Quality
& Reliability

On-Time Delivery
Every Time

Efficient Processes
& Productivity

Customer Satisfaction
& Trust

Continuous Improvement
& Innovation

QUALITY ASSURANCE

At Sri Bhairaveshwara Power Control, quality is at the core of everything we do. We follow rigorous quality assurance processes at every stage of design, manufacturing and testing to deliver electrical control panels that are safe, reliable and built to last.

OUR QUALITY ASSURANCE COMMITMENT

We are committed to delivering electrical control panels that consistently meet the highest standards of quality, safety and performance to ensure complete customer confidence and long-term reliability.

01

QUALITY MATERIALS

We use high-grade, certified components from trusted brands to ensure durability, reliability and long service life of our panels.

02

PRECISION ENGINEERING

Our skilled engineers and advanced processes ensure precise design, meticulous assembly and superior workmanship in every panel.

03

INTERNAL TESTING

Every panel undergoes strict in-house testing and inspection at multiple stages to ensure functionality, accuracy and flawless performance.

04

SAFETY STANDARDS

We adhere to national and international safety standards and best practices to ensure maximum safety for people, equipment and operations.

05

CONTINUOUS IMPROVEMENT

We constantly review and enhance our processes, technology and skills to improve quality, efficiency and deliver better solutions every day.

06

CUSTOMER SATISFACTION

We focus on understanding customer needs and delivering reliable, on-time solutions that build trust and create long-term partnerships.

Our quality assurance processes ensure that every panel we deliver is safe, reliable and exceeds customer expectations.

CONTACT US

We are always here to help you with the best solutions for your electrical control panel needs.

Get in touch with us for inquiries, orders or support.
